

MEMORY

ARES ARMOR LITE

DDR5 RGB MEMORY

SPECIFICATIONS

Module Type	288-Pin Unbuffered DIMM
Capacity	8GB/16GB/32GB
Frequency	5600MHz/6000 MHz/ 6400 MHz
IC Configuration	1024*16 / 2048*8
Voltage	1.2v / 1.35v
Working Temperature	0°C ~85°C

DESCRIPTION

ARES ARMOR Lite is a DDR5 RGB gaming memory based on FBGA components per module. Each module supports XMP 3.0 and had tested to run at DDR5-5600/6000/6400 at low latency timing at 1.35v. Each 288-Pin DIMM used gold contact fingers. The JEDEC standard electrical and mechanical specifications are as follows:

Module type	DDR5 288 Pin Non-ECC DIMM		
Frequency	5600	6000	6400
Cas Latency	CL46	CL48	CL52
Capacity	8GB	8GB	8GB
	16GB	16GB	16GB
	32GB	32GB	32GB
Voltage	1.2v	1.35v	1.35v
Warranty	5 Years		

FEATURES

- Shining with RGB light
- Overclocking with XMP 3.0
- Synchronization with main motherboards
- Compatible with Intel and AMD
- V-CUT and diamond design.
