

DATO DDR3 Unbuffer SODIMM

Reliable Memory for Mobile Computing

Compact, low-voltage memory module engineered for notebooks and small-form-factor systems. With 204-pin design, 1.35V operation, and speeds up to 1866 MT/s, it delivers efficient performance while conserving power. DATO DDR3 SO-DIMM ensures stable compatibility and reliable bandwidth, making it ideal for mobile computing and energy-sensitive applications.

Memory module type		DDR3 204 Pin Non-ECC Unbuffered SODIMM		
Frequency	1066	1333	1600	1866
Cas Latency	CL7	CL9	CL11	CL13
Capacity	2GB	2GB	2GB	2GB
	4GB	4GB	4GB	4GB
	8GB	8GB	8GB	8GB
Operating temperature	0°C to 70°C			
Voltage	1.35v	1.35v	1.35v	1.35v
Warranty	3 Years
