

DATO DDR4 Unbuffer DIMM

Experience Power and Efficiency with DATO DDR4

DATO's DDR4 memory module operates at a low voltage of just 1.2V, significantly reducing power consumption. This not only minimizes heat generation but also helps maintain the ambient temperature around the system. Fully compliant with JEDEC standards, this product guarantees 100% compatibility with all major platforms on the market. It is available in both single-channel and dual-channel packages to cater to different user needs. DATO's DDR4 memory module stands out for its exceptional stability, long-term efficiency, and low power consumption, ensuring superb performance for all users.

Memory module type	DDR4 288 Pin Non-ECC Unbuffered DIMM		
Frequency	2666	3200	3600
Cas Latency	CL19	CL22	CL18
Capacity	4GB	4GB	4GB
	8GB	8GB	8GB
	16GB	16GB	16GB
	32GB	32GB	32GB
Operating Temperature	0°C to 70°C		
Voltage	1.2v	1.2v	1.35v
Warranty	3 Years
