

DATO DDR5 Extreme DIMM

Experience Power and Efficiency with DATO DDR5

The **DATO Extreme DDR5** memory module is engineered for next-generation computing, delivering speeds of 5600/6000MHz for faster load times and effortless multitasking. An efficient heatsink design keeps the modules running cool under sustained load, translating directly into stable, consistent performance. Operating at just 1.35V, Extreme DDR5 draws less power while holding top-tier speeds — an ideal match for gamers, creators, and power users who demand both efficiency and uncompromising reliability.

Memory module type	DDR5 288 Pin Non-ECC Unbuffered DIMM	
Frequency	5600	6000
Cas Latency	CL36	CL30
Capacity	8GB	8GB
	16GB	16GB
	32GB	32GB
Voltage	1.35v	1.35v
Working Temperature	0°C ~60°C	
Warranty	3 Years
